

This heatmap visualization represents a 20x20 matrix, likely a similarity or distance matrix. The color scale ranges from dark blue (low similarity) to dark red (high similarity). The diagonal elements are dark blue, indicating zero similarity or distance. The matrix is symmetric, with the upper and lower triangles mirroring each other. The off-diagonal elements show varying degrees of similarity, with red indicating high similarity and blue indicating low similarity. The matrix is symmetric, as evidenced by the mirrored colors across the diagonal.
