

The figure displays a ground truth dynamic network with 24 nodes and directed edges. The nodes are represented by red dots and are numbered 1 through 24. The edges are represented by blue arrows, indicating the direction of the connections. The network is plotted on a 2D coordinate system with axes ranging from -3 to 3. The nodes are distributed across the plot, with a dense cluster of nodes in the upper right quadrant and a more sparse distribution in the lower left quadrant. The directed edges form a complex web of connections, with many nodes having multiple incoming and outgoing edges. The overall structure suggests a highly interconnected and dynamic network.
