

The figure is a scatter plot titled "Ground truth of Decision network". It shows a set of 38 numbered points (1-38) distributed across a 2D plane with axes ranging from -4 to 4. The points are connected by blue arrows, indicating a directed path or network structure. The path starts at point 1 (approx. -0.5, -2.2) and proceeds through various points, including 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, and 38, eventually forming a large loop that returns towards the starting area. The points are colored red, and the connecting arrows are blue.
